

Table of contents

15	PREFACE
	<i>Nicola Spagnolo</i>
19	1. THE RECYCLED MODEL: A CIRCULAR ECONOMY STORY
	<i>Iacopo Grassi</i>
19	1.1. Introduction
22	1.2. Related Literature
26	1.3. Descriptive Evidence and Institutional Background
26	1.3.1 <i>Circular Economy Investments at the Local Level</i>
26	1.3.2 <i>Funding Mechanisms and Fiscal Implications</i>
27	1.3.3 <i>Empirical Patterns and Stylized Facts</i>
28	1.4. Theoretical Framework
28	1.4.1 <i>A Static Model of Subsidies and Local Taxation</i>
34	1.4.2 <i>A Dynamic Extension with Transition Costs</i>
37	1.5. Policy Implications
41	1.6. Conclusions
43	References
45	2. GREEN INVESTMENTS AND CIRCULAR ECONOMY PRACTICES: EVIDENCE FROM A RECENT SURVEY OF ITALIAN FIRMS
	<i>Marco Bottone, Lorenzo De Masi</i>
46	2.1. Introduction
51	2.2. Data and question wording
51	2.2.1 <i>Data</i>
52	2.2.2 <i>Question wording</i>
55	2.3. Green investment
55	2.3.1 <i>Descriptive evidence</i>
62	2.3.2 <i>Green investment and firms' dynamics</i>

67	2.4. CE practices among Italian firms
75	2.5. Conclusions
77	References
81	3. THE IMPACT OF FINANCIAL DEVELOPMENT ON POLLUTANT EMISSIONS <i>Salvatore Ciucci</i>
82	3.1. Introduction
84	3.2. Literature Review
87	3.3. Theoretical Model
91	3.4. Empirical Analysis
99	3.5. Concluding remarks
101	References
102	Appendix A
103	Appendix B
103	Appendix C
104	Appendix D
105	Appendix E
107	4. CIRCULAR ECONOMY AND STOCK MARKETS IN EUROPE <i>Ida Colella</i>
108	4.1. Introduction
110	4.2. Literature review
110	4.2.1 <i>Circular economy and policy implications</i>
111	4.2.2 <i>The economic and financial dimension of the circular economy</i>
113	4.3. Data
114	4.3.1 <i>Climate policy index</i>
115	4.3.2 <i>Dependent and control variables</i>
116	4.3.3 <i>Circular economy indices</i>
119	4.4. Model framework
120	4.5. Empirical results
129	4.6. Conclusions
131	References

135	5. EUROPEAN SMALL FIRMS AND THE ADOPTION OF RESOURCE EFFICIENCY MEASURES <i>Cristiana Donati</i>
136	5.1. Introduction
138	5.2. Literature Review
140	5.3. Data and Variables Description
146	5.4. Model Specification and Hypothesis Testing
148	5.5. Empirical Analysis
152	5.6. Conclusions
153	References
157	6. SHADOW ECONOMY, INSTITUTIONAL QUALITY AND ENVIRONMENTAL SUSTAINABILITY <i>Désirée Teobaldelli</i>
158	6.1. Introduction
160	6.2. The Shadow Economy: Definition, Characteristics, Determinants, and Economic Consequences
164	6.3. The Environmental Implications of the Shadow Economy
168	6.4. The Shadow Economy and the Circular Economy
171	6.5. The Shadow Economy and the Challenges of Sustainability
173	6.6. Conclusions and policy implications
175	References
181	7. MISINFORMATION AND SUSTAINABILITY <i>Ornella Tarola</i>
181	7.1. Introduction
183	7.2. Fake news: some definitions
186	7.3. Fake news and social media
192	7.4. Fake news: some policy implications
197	7.5. Conclusions
198	References

201	8. MEASURING CIRCULARITY: A COMPOSITE INDEX TO ASSESS REGIONAL CONVERGENCE <i>Claudia Cantabene, Alessandro De Iudicibus</i>
202	8.1. Introduction
204	8.2. Theoretical framework
206	8.3. RCPI index: data and construction
209	8.3.1 <i>Description of the Pillars</i>
212	8.3.2 <i>Descriptive analysis</i>
214	8.4. Empirical analysis and results
216	8.4.1 <i>Results</i>
221	8.5. Discussion and policy implications
223	8.6. Conclusions
224	References
227	9. THE CIRCULAR ECONOMY: CONCEPTUAL FOUNDATIONS, GENERAL EQUILIBRIUM MODEL, AND APPLICATIONS ACROSS SECTORS <i>Maria Garcia Reyes</i>
227	9.1. Introduction
230	9.2. Conceptualisation and Definition
237	9.3. The Economic Model
238	9.3.1 <i>Agents and Structure of the Economy</i>
241	9.3.2 <i>Limitations</i>
243	9.4. Implementation, Policy, and Global Adoption
248	9.5. Conclusions
249	Appendix
253	References
257	10. A REAL OPTIONS GAME MODEL FOR EVALUATING A WASTEWATER TREATMENT PLANT UNDER PPP MECHANISM <i>Antonio Di Bari, Maria Romaniello</i>
258	10.1. Introduction
260	10.2. Model
267	10.3. Numerical example
271	10.4. Conclusions and limitations
271	References

275	11. ASSESSING PRODUCTION AND SEPARATE WASTE COLLECTION IN ITALIAN MUNICIPALITIES: A COMPARATIVE STUDY OF COMPOSITE INDICATORS FOR THE CASERTA PROVINCE <i>Maria Rosaria Alfano, Ida Camminatiello, Rosaria Lombardo</i>
276	11.1. Introduction
279	11.2. Validation of the composite indicator: Internal consistency and coherence
282	11.3. Five Aggregation Methods for PROSEWA
283	11.3.1 <i>Check Sensitivity of the composite Indicator</i>
287	11.3.2 <i>Check Coherence of the five Indicators</i>
288	11.4. Conclusion
290	References
293	12. SWITCHING TO EUROPEAN SUSTAINABILITY REPORTING STANDARDS: EARLY EVIDENCE <i>Clelia Fiondella, Martina Prisco</i>
294	12.1. Introduction
296	12.2. The ESRS E5 “Resource Use and Circular Economy”
297	12.3. Prior research on the real effects arising from the adoption of sustainability standards
299	12.4. Theoretical frameworks and hypothesis development
301	12.5. Methodology
303	12.6. Empirical results
306	12.7. Discussion and conclusions
308	References
313	13. DIVERSITY AND INCLUSION IN WORKPLACES AS A DRIVER OF FIRMS’ CIRCULAR ECONOMY PERFORMANCE <i>Maria Coscia, Lucia Michela Daniele, Francesco Gangi, Nicola Varrone</i>
314	13.1. Introduction
319	13.2. Theoretical background and hypothesis development
319	13.2.1 <i>The CE trajectories</i>
323	13.2.2 <i>The relationship between D&I practices and CE performance</i>

326	13.3. Methodology
326	13.3.1 <i>Sampling procedure and data collection</i>
327	13.3.2 <i>Variables</i>
332	13.4. Results
336	13.5. Discussion
337	13.6. Conclusion
341	References
347	14. INTERPRETING INNOVATION PROCESSES IN THE LIGHT OF THE CIRCULAR ECONOMY AND SUSTAINABILITY: OLD CHALLENGES AND NEW PERSPECTIVES <i>Diego Matricano</i>
348	14.1. Introduction
350	14.2. The Circular Economy and Sustainability: Ap- proaching and defining the topics
351	14.3. Innovation Theories and Processes: A Literature Review
357	14.4. Interpreting Innovation Processes in the light of the Circular Economy and Sustainability: Some Critical Reflections to Advance Research and Rai- se Social Awareness
362	14.5. Final remarks
363	References
369	15. CIRCULAR FASHION: CURRENT SCENARIO AND OPEN LEGAL ISSUES. PRIVATE LAW ASPECTS <i>Maria Antonia Ciocia, Paola Grimaldi</i>
370	15.1. Sustainable Fashion: The Journey of the <i>Fashion Industry</i>
374	15.2. The regulatory landscape of the fashion sector
376	15.3. The <i>End of Waste</i> in <i>Fashion</i>
379	15.4. The phenomenon of <i>greenwashing</i> in the fashion industry

386	15.5. <i>Disruptive</i> Technologies for Sustainable Fashion: Fashion 4.0
393	15.6. Conclusions
394	References
397	16. THE TRANSITION FROM A LINEAR TO A CIRCULAR ECONOMY IN THE WASTE CYCLE <i>Marco Tiberii</i>
398	16.1. Introduction
400	16.2. The concept of waste as a “resource” in the transition from a linear economy to the circular economy
404	16.2.1. <i>Continued.</i> “Sustainable economic development” and the 2030 Agenda
405	16.3. The Green Deal and the New European Plan for the Circular Economy
408	16.4. The method or “precautionary principle”
410	16.5. The principle of “sustainable economic development” in Community law
411	16.6. The principle of “sustainable economic development” in domestic law
414	16.7. Conclusions. The “prevention principle” in the waste cycle
418	References
421	17. PRECAUTION: A PRINCIPLE TO INSPIRE ENVIRONMENTALLY FRIENDLY TAXATION <i>Clelia Buccico</i>
421	17.1. Introduction
425	17.2. The precautionary principle in European law
430	17.3. The precautionary principle in national law
433	17.4. Interim observations
435	17.5. The application of the precautionary principle to tax law
439	References

441	18. THE ROLE OF TAXATION IN THE CIRCULAR ECONOMY
	<i>Maria Rosaria Viviano</i>
442	18.1. Introduction
444	18.2. The concept of taxation on the circular economy
446	18.3. Tools of the circular economy
448	18.3.1 <i>The role of taxation</i>
451	18.4. A look at the EU
456	18.5. Conclusions and prospects for the future
463	References
4615	19. INFRASTRUCTURES FOR CIRCULARITY OF RESOURCES
	<i>Roberto Bosco, Renata Valente</i>
466	19.1. Urban crisis and circular economy
472	19.2. From RECs to Sustainable Urban Communities: the integrated People-Policies-Places approach
475	19.3. For an integrated design of the SUC
479	19.4. Internal relations within a Sustainable Urban Community
484	19.5. Implications, criticalities, and prospects
486	References
489	<i>Authors Biography</i>
499	<i>punto org book series</i>
